Show me your sound – Task sheet

Task:

Your task is to upload or record a sound file into Audacity and edit the file by adding and removing different sounds, instruments and vocals. Your file must be between 3-5 minutes and have 10 edits throughout the song. You are to save the sound file into your personal ICT challenge folder and save a word document that lists the 10 edits. After finishing the task log into the todays meet show me your sound chat room and share something new you learnt, a challenge you came across and how you resolved that challenge.

Process:

1. Download or record a sound file onto the computer.
2. Upload the sound file into Audacity.
3. Make 10 edits to the original sound file – these can be removing sounds, adding instruments or adding vocals.
4. Save the edited sound file into your personal ICT challenge folder.
5. Create a word document that lists the 10 edits you have made.
6. Save the word document into your personal ICT challenge folder as (name) show me your sound.
7. Log into show me your sound todays meet chat room
8. Share something new you learnt, a challenge you came across and how you resolved that challenge

If you are unsure how to use Audacity it may be useful to Google Audacity. There are also helpful how to use Audacity videos that can be found on YouTube.
Remember classroom netiquette rules apply when communicating within the todays meet chat rooms.
