

Garageband - Task sheet

Task:

Your task is to create a 3-minute instrumental piece using garageband. Open the garageband software and create a new track. Using a range on musical instruments create a 3-minute piece of music. Save the final product into your personal ICT challenge folder. Log into the garageband todays meet chat room and share one thing you learnt, one challenge you faced and how you overcame that challenge.

Process:

1. Open the garageband software.
2. Create a new track.
3. Use a range of musical instruments to create a 3-minute instrumental piece of music.
4. Save the musical piece into your personal ICT challenge folder as garageband.
5. Log into the garageband todays meet chat room and share one thing you learnt, one challenge you faced and how you overcame that challenge.

Teacher tip:

Trial each of the musical instruments that you can use in garageband to see the potential sounds you can use.

YouTube musical instrument pieces and research different types of instrument sounds that generally go well together.

Remember classroom netiquette rules apply when communicating within the todays meet chat rooms.
